WHAT'S NEW THIS YEAR: FEED YOUR VISION...

-  **Design Deals that Reflect Value** - Learn how to design companies that reflect value, save money, and continue to grow in your shareholders' eyes.
-  **Understand how pharma is thinking about out-licensing** - Learn how dealmakers determine the best deal type based on products in R&D. Calculate the value of an asset to optimize deal structure.
-  **Pioneer New Business Models for Creative Deal Structures** - Hear first-hand how Nimbus CEO, Jeb Keiper, structured a new business model.
-  **Examine The Life Cycle of a Company** - Sit in with industry leaders Mary Lynne Hedley & Lonnie Moulder as they share the story behind the GSK acquisition of Tesaro.
-  **Find A New Way to Collaborate** - Discuss some of the challenges of creating a collaboration between two companies.
-  **Leverage Digital Innovation to Improve Outcomes** - Discover how investing in digitization can lead to better usage of health data and more personalized patient health care.

LEADERSHIP TEAM

This dynamic group brings a wealth of knowledge and industry insights to the forefront. The team's direction will facilitate better collaboration and richer discussion among industry leaders.

LEADERSHIP TEAM

"My vision for this business is to be one of the premier networking and content-rich conference series in the life sciences ecosystem. I'll leverage my experience and passion of running my own Boston Biotech Forum to help move this company forward with heightened engagement and worthwhile discussion."

"In my role, I'm excited to bring forward the most relevant topics and pressing trends in our industry. It's my goal to give senior executives a one-of-a-kind opportunity for sharing ideas and contributing to meaningful discussion with their peers."

AMBASSADOR COMMITTEE
